American Recovery and Reinvestment Act Payments Surge Past \$5 Billion

More than \$5 billion in Recovery Act payments are accelerating environmental cleanup

“We are now in the homestretch of Recovery Act work, and surpassing \$5 billion in Recovery Act payments is an important milestone in our accelerated cleanup of the legacy of the Cold War. The \$5 billion has been instrumental in significantly exceeding the Administration’s High Priority Performance Goal of 40 percent footprint reduction within EM, a full five months ahead of schedule. EM’s footprint has been reduced a total of 489 square miles, or 53 percent, through July as a result of the Recovery Act funding.”

JOB HIGHLIGHTS

- According to FederalReporting.gov, a government-wide data collection system, EM Recovery Act sites reported a total of **8,623** full-time equivalent (FTE) employees between **April and June 2011**.
- EM collects a cumulative number of workers — which now is **35,850** — who have benefited from Recovery Act funding since the program’s start in early 2009. That figure includes part-time, temporary, and full-time workers.

* EM completed Mound cleanup activities in October 2010

** FTEs reported in FederalReporting.gov as of Aug. 1, 2011
